

**YOUR EFFICIENCY  
PARTNER TO  
GROW**

# ABOUT COMPANY

Starting with industrial equipment installation, **EKII** invest deeply in time and effort to know and understand your challenges so that we come to you with suitable solutions, by providing you products and solutions that make you more efficient from mine to port and from plant to market .

## PRODUCTS & SERVICES

With our partners, EKII can help you to take full control of your industry to increase productivity in your project from useful study and expectation to achievement with a complete portfolio of technology product and services

### PUMPS, VALVE & ACCESSORIES

- Water and wastewater pumps
- High Pressure Pumps
- Centrifugal Pumps
- High Viscosity Pumps
- Peristaltic pumps

### PROCESS INSTRUMENTATION

- Flow measurement
- Level measurement
- Temperature measurement
- Pressure measurement

### CHEMICAL REAGENTS

- Sulphhydrate de sodium
- Amylxanthate de potassium axk
- Isobutyl xanthate de sodium sibx
- Mibc

### ELECTRIC & ENERGY

- Power Generation
- Transmission & Distribution
- Medium- & Low-voltage Systems
- Low Voltage electrical equipment
- Security & Automation Equipment
- Lighting
- Solaire

## GRINDING BALLS

EKII and partners, offers all type of forged sphere steel balls for mills in diametres between  $\varnothing$  25 mm and  $\varnothing$  150 mm and demanded hardness (HRC. We also produce steel balls due to special conditions, as required)

## PERSONAL PROTECTIVE EQUIPMENT (PPE)

EKII distribut all equipment that will protect the user against health or safety risks at work. It can include items such as safety helmets, gloves, eye protection, high-visibility clothing, safety footwear and safety harnesses

## BELTS & CONVEYOR EQUIPMENT

EKII offers different types of belt conveyors, depending on capacities, inclination and material sizes. We design belt conveyor systems for all types of industry

- Resister Abrasion resistant belts used for general applications
- Abrasion and impact resistant belts for more harsh applications
- Belts showing extraordinary resistance to impact, cuts and abrasion
- Abrasion resistant belts used for highly abrasive coarse materials

# Our Services

## ADVICE AND ENGINEERING

Our teams allow us to challenge and develop practical solutions to accelerate operational improvements. We have the skills that help Companies to grow.

## INSTALLATION & CARE

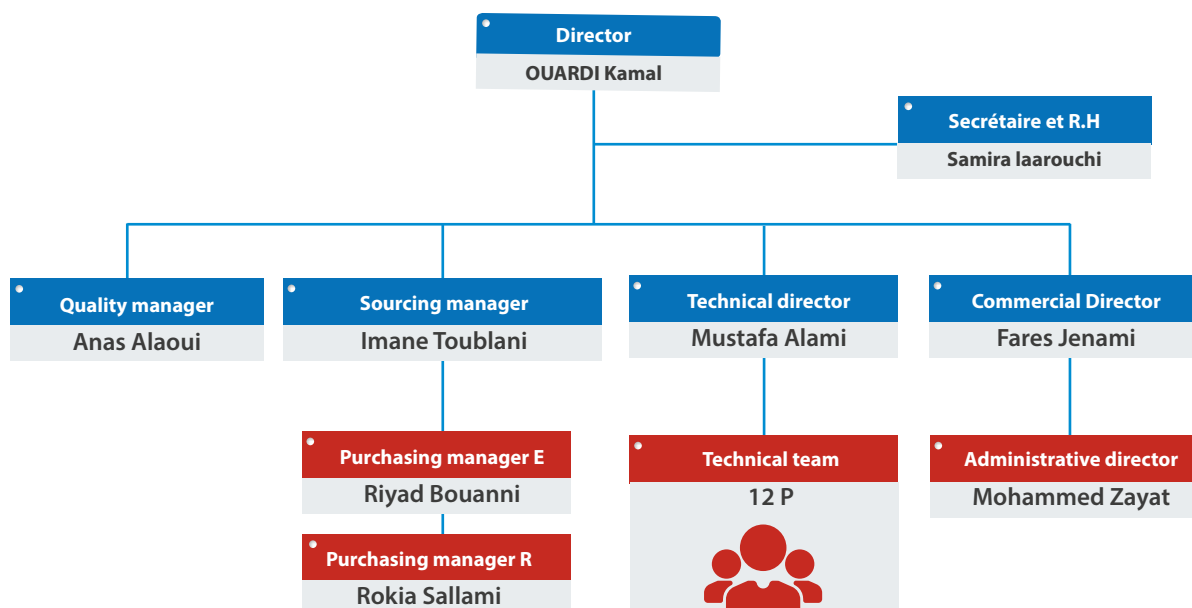

Our team would be happy to take over the installation, give us a date and we will produce a precise schedule and installation plan and agree it with you.

## SOURCING AND SUPPLY

EKI understand the needs of its clients and provide them with adaptable solutions by purchasing materials, products, and services, with improving quality and reducing costs
